

# TRỊNH ĐƯỜNG QUANG

## FRONT-END DEVELOPER (INTERNSHIP)

I am a fourth-year Software Engineering student. I am looking for a web-based user interface (UI) programming internship to gain practical knowledge and experience from experienced colleagues.

## EXPERIENCE

### AN THAI KHANG COMPANY WEBSITE

**Role:** Front-end Developer **Technologies:** ReactJS (Vite), HTML5, CSS3, JavaScript (ES6+), GitHub.

- Developed a corporate website to showcase business activities and construction projects.
- Built and optimized key interfaces including Homepage, Featured Projects, and Contact pages.
- Collaborated with the team to merge code and manage versions via GitHub.

### PERSONAL PORTFOLIO WEBSITE

**Role:** Front-end Developer **Technologies:** ReactJS (Vite), CSS3 (Flexbox/Grid), Vercel.

- Design a website to showcase personal information and projects participated in.
- Implement a fully responsive layout, ensuring display on both mobile and desktop devices.
- Deploy and maintain the application on the Vercel platform.
